Good to hear from you. I would be able to call you around 5 p.m. this afternoon if that still works for you.

I look forward to our conversation.

Cheers

Kate

Hi Kate,

Thanks for your note. Sorry to take a bit to get back to you--busy after being gone for a week and then a switchover to a new computer, so I was computerless for nearly a day. Today is a half-day meeting, so may have time to talk around 5 pm your time. Let me know if that would work for you, or suggest a few times on Wednesday--it's fairly clear for me.

Best,

Susan

My name is Kate Bouvé and I work in the Office of Pesticide Programs (OPP) at

U.S. EPA. I've recently become part of a team of colleagues from OPP and our Office of General Council working on rodenticide issues. I would be pleased if we could schedule some time to talk. I'm very interested in learning more about your work on rodenticide issues. I would also like to know your reaction to a Pest Management Professionals (PMP) survey that was released a couple of weeks ago by ASCPRO and NPMA. (See link below.)

I understand you are out of the office this week. I hope we can schedule some time to talk next week.

Best wishes -

Kate Bouvé  
Program Analyst

## ASPCRO and NPMA Release PMP Rodent Control Use Survey

In an effort to better understand how PMPs typically perform rodent control, what products they use, where they use them, and related questions, the Association of Structural Pest Control Regulatory Officials (ASPCRO) and National Pest Management Association (NPMA) again partnered on an industry survey. Close to 300 PMPs responded to the survey which was conducted last Fall. To see a copy of the results, [click here](#). For more information, contact Bonnie Rabe at [BRabe@nmda.nmsu.edu](mailto:BRabe@nmda.nmsu.edu) or Bob Rosenberg at [rosenberg@pestworld.org](mailto:rosenberg@pestworld.org).
